COVERS WINDOWS DURING REFURBISHMENT or DECORATING WORK

Temp **SCREEN**™
SCREENING AND PROTECTION FILM
is neat, tidy, smart, clean...

USE AS A TOUGH PROTECTIVE SHIELD...

for carpets, flooring and furniture while decorating,
refurbishment or during transit.

No need for those scruffy, whitewash smeared windows in an attempt to hide refurbishment work.

Now the unsightliness inside can be screened from prying eyes by neat and smart Tempscreen, whose special adhesive holds it in place for as long as you want, and then allows quick, clean and simple removal.

Any paint splashes or spills come away with the screen – so no scraping and scratching your windows clean.

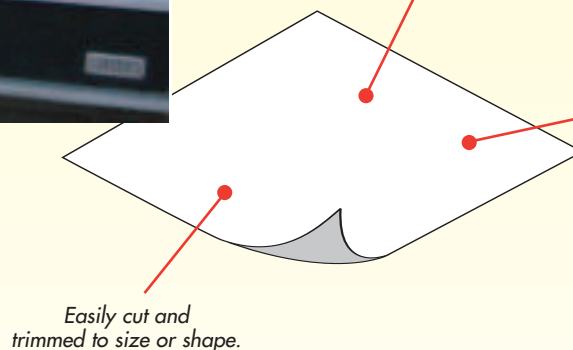

THE MIRACLE FILM... ON A ROLL

... and
why not add your
message in cut-out

lettering, or your colour logo
onto its surface, to keep
your public informed.

**refer to supplier for more information*

*Advanced low-tack adhesive,
easily removed without damage to
surface.*

*Easily cut and
trimmed to size or shape.*

EASY TO INSTALL...

... and, once work is completed, is just as easily removed, thanks to its technically advanced temporary adhesive system. Cleaning and clearing up time is reduced, as there is no glue residue to be removed and paint splashes are removed with the film.

... EASY TO REMOVE.
